PROFESSIONAL SUMMARY

Computer Science Engineering graduate (2026) with strong programming fundamentals in Java and JavaScript. Skilled in Object-Oriented Programming, Data Structures, Algorithms, REST APIs, and software development practices. Familiar with Software Testing concepts including test case design, functional testing, debugging. Experienced in Git version control and building full-stack applications using React, Node.js, and databases.

EDUCATION

Kathir College Of Engineering (Aug 2022 - Mar 2026)
Bachelors of Computer Science Engineering (CGPA - 8.1)
R.V.S.Matriculation.Higher.Secondary School
Senior Secondary (82%)
Secondary School (77%)

TECHNICAL SKILLS

Programming Languages: Java,Typescript, JavaScript
Frontend: ReactJS ,NextJS, HTML, CSS, Bootstrap, Tailwindcss
Backend: Node.js, Express.js, REST APIs
Databases: MySQL, MongoDB, PostgreSQL
Concepts: CS Fundamentals, Object-Oriented Programming (OOP), Data Structures & Algorithms
Tools: Git, MS Excel , Figma , VS Code, React DevTools, Docker

PROJECTS

Event Management System(MERN Stack) | https://github.com/Bharathi310/Event_Management

- Developed a Smart Campus Event Management System enabling event registration, real-time participant tracking, admin analytics dashboard,virtual mapping and automated email notifications through RESTful APIs.
- Designed a QR-based digital identity system for secure event access with entry/exit validation, attendance tracking, and dynamic certificate generation based on verified participation data.
- Designed and executed test cases for user registration, event booking, authentication, and admin workflows.

Xplore IT Corp– Corporate Website (Live Project)|<https://www.xploreitcorp.com/>

- Built a responsive and user-friendly interface using Next.js and TypeScript, ensuring smooth navigation, mobile compatibility, and modern UI design.
- Developed backend services with Node.js and integrated REST APIs to handle business logic, user requests, and secure data processing.
- Designed and managed a MySQL database for storing, retrieving, and maintaining application data, ensuring data accuracy, performance, and reliability.

EXPERIENCE

React Intern | MERN Stack Trainer | Xplore Intellects (Jul 2025 - Oct 2025)

- Developed and engineered two live industry projects (Kama Capital and Xplore IT Corp), improving development efficiency and meeting project deadlines.
- Implemented responsive frontend features, integrated backend services, and supported database operations to ensure smooth, secure, and efficient application performance.
- Served as a Technical Trainer at VETIAS, mentoring peers in full-stack development projects, guiding them through practical implementation and best practices.

Full Stack Developer intern | Altruistry (Nov 2024 - Jan 2025)

- Developed and enhanced full-stack web applications using the MERN stack, translating functional requirements into robust, working features.
- Successfully implemented and integrated REST APIs with React-based front-end components, ensuring efficient data exchange and application responsiveness.
